VISIONING PUBLIC WORKSHOPS

Durham Traffic Separation Study

Transportation Improvement Program Project No. P-3309D

Join us for public workshops to make rail crossings safer in Durham

The North Carolina Department of Transportation (NCDOT) will host a series of public workshops to discuss a study to look at potential safety improvements at 18 public railroad crossings between Neal Road and Cornwallis Road in Durham. Needed improvements may include:

- New or upgraded crossing safety equipment, such as signals or gates
- New roadway overpasses or underpasses
- Closing railroad crossings

The upcoming visioning workshops will introduce the study and provide an opportunity for you to ask questions and provide your ideas on how to improve safety at the railroad crossings. Please attend a workshop to learn more and share your thoughts with the project team.
